

DANIEL DIPPOLD

BIOGRAPHY

Short Biography

Daniel is a passionate entrepreneur and angel investor. He's built NEWNOW Group with seasoned global C-levels delivering machine learning apps to DAX30 clients, EWOR, a global pre-idea accelerator, and Sigma Squared Society, a global entrepreneurship organisation represented on all continents in over 30 countries.

DETAILED BIO

DANIEL W DIPPOLD

Daniel is a passionate tech entrepreneur and entrepreneurship advocate.

Daniel has built four companies. He has built Emoti, which measured emotional intelligence based on the analysis of soundwaves; the technology of which was sold in 2017.

Daniel is CTO and co-founder of www.newnow.group which builds machine learning and data infrastructure applications for triple bottom line impact serving clients such as EON, Deutsche Bank and Philips, expecting € 5 Mio in sales by the end of 2022. NEWNOW works on projects that create value for people and the environment next to profit and has a multigenerational leadership approach: The company is led by C-Level leaders such as the former CMO of Motorola, the former CFO of Procter & Gamble DACH, and the former president of Xerox France as well as young machine learning engineers such as Daniel.

Daniel has moreover founded the Sigma Squared Society, an organization uniting the world's most outstanding entrepreneurs, eleven of whom have become unicorns to date. Sigma Squared Society counts over 100 volunteers world-wide, is represented in over 30 countries globally, and its entrepreneurs have raised a collective some of over 1.5 BN €s.

He has built www.ewor.io – an EdTech platform helping aspiring entrepreneurs all over the globe to build impactful companies. EWOR's award-winning education system is challenge-driven instead of curriculum-based and has empowered entrepreneurs all over the world to build businesses impacting millions of people. Companies that have been build include Patchwork Hub, the leading job platform for disabled workers, SOKR (sustainable OKRs), and Flike, which was recently featured in Forbes after closing their €1.6 Mio pre-seed round, and many more.

Daniel built www.unlimitix.com, an AI-driven coach helping individuals lose weight by deploying a holistic coaching concept based on habit- and emotion detection. Daniel is no longer involved in the operational leadership of Unlimitix and has passed on the management of the company to a new CEO. The company has recently raised a pre-seed financing round of €400K.
